

DESIGN PROFESSIONALS

Architectural Professionals

National CAD Services has been meeting the needs of the design community since 1992. We continue to develop innovative ways of producing a better product for the best price. Our dedication to quality and accuracy has benefited our clients in the following discipline:

Architects:

Our firm has forged partnerships that allow a great deal of flexibility and mobility. This evident by teaming our qualified Architectural Interns with local project Architects to produce highly creative solutions. From the design phase to final permit sets we will create construction documents to your specifications. We provide construction documents for commercial, industrial, retail and residential projects ready for permits and bids. We charge an hourly rate of \$45.00 per hour for this level of expertise. Let us discuss the level of involvement your project requires in order to determine a cost estimate. Projects require different levels of design development and detailed information. Let us help define these roles to insure a successful project.

Many services include; field measuring buildings exterior and interior spaces to provide as-built drawings. We charge a "per square foot" rate for these services based on our Mid-level employees.

Hourly Rates for services:

- Mid-level - field measuring services and generic CAD transfer & mark-up - \$35.00
- Senior level – advanced CAD transfers and project coordination - \$40.00
- Architectural Intern – For project management and creating construction documents from design plans and details - \$45.00

Availability – we pride ourselves on being available to assist you on your project with little advanced notice. Many projects that we are called on to assist Architects with happen within (1) day of requesting the work. Our flexibility in managing our people makes us better able to service the needs of our clients.

Architects have used and continue to use National CAD Services because they see the immediate benefits. They value the quality service, quick turn around time and money saved.

To make NCS part of your team – give us a call at (248) 647-6777 and we can discuss your needs and goals so that you can benefit too.

NCS makes your efforts pay bigger dividends!
