

# DESIGN PROFESSIONALS

## Interior Design Professionals

National CAD Services has been meeting the needs of the design community since 1992. We continue to develop innovative ways to produce a better product for the best price. A brief description of services that have benefited our clients from our dedication to quality and accuracy:

### Interior Designers:

NCS has qualified Architectural Interns with experience in producing architectural drawings on CAD to assist Interior designers with their projects. From the design phase to final permit sets we can create the construction documents to your specifications. We provide construction documents for commercial, industrial, retail and residential projects ready for permits and bids. We charge a range of hourly rates for these services. We can discuss the level of involvement in order to determine an estimated cost to complete each project. Many projects have different levels of design and detailed information; these roles can also be defined to insure a successful conclusion to the project.

Many services include; field measuring buildings and interior spaces to provide as-built drawings. We charge a per square foot for these services based on a \$35.00 per hour rate.

### Hourly Rates for services:

- Mid-level - For field measuring services and generic CAD transfer mark-ups - \$35.00
- Senior level – For advanced CAD transfers and project coordination - \$40.00
- Architectural Intern – For creating architectural drawing from design plans and details and project management - \$45.00

Availability – we pride ourselves on being available to assist you on a project with very little notice. Many project that we are called on to assist Interior designers with happen within (1) day of requesting the work. We are very flexible and manage our people to service the needs of our clients.

Interior designers have used our services and continue to use are services because they see the benefits of using National CAD Services as part of there company. They value the quality service, quick turn around time and money saved on each project.

To make NCS part of your business – give us a call at (248) 647-6777 and we can discuss your needs and goals that will benefit your company.

***NCS makes your efforts pay bigger dividends!***
